

SYNTHETIC LAYOUT DEMONSTRATION

Portrait first page

Plain input PDF for testing the SAFE formatter.

This file is a demonstration, not a stock assessment.

First-page disclaimer and numbering conventions can be checked [here](#).

Example body area

No scientific data or assessment conclusions are included.

Reserved margins allow headers and footers to be added later.

SYNTHETIC LAYOUT DEMONSTRATION

Landscape page

The page dimensions are 11 by 8.5 inches.

Check mirrored headings, footer position, and the centered page number.

Example body area

No scientific data or assessment conclusions are included.

Reserved margins allow headers and footers to be added later.

SYNTHETIC LAYOUT DEMONSTRATION

Rotated landscape page

The stored page is portrait with a 90-degree PDF rotation.

The visible content and added text should both appear upright.

Example body area

No scientific data or assessment conclusions are included.

Reserved margins allow headers and footers to be added later.

SYNTHETIC LAYOUT DEMONSTRATION

Cropped portrait page

The visible crop box is smaller than the stored media box.

Its origin is offset by 12 points horizontally and 18 points vertically.

Check that added text stays within the visible page margins.

Example body area

No scientific data or assessment conclusions are included.

Reserved margins allow headers and footers to be added later.
